

WARM UP

**Look at these two paintings.
What are the similarities?
How are they different?**

What is **Pop Art**?

- A major art movement from the mid 1950's in England and by the early 1960's was at it's fullest potential in New York.
- Themes and techniques were drawn from *popular culture* (hence "pop" art):
 - advertising, mass media
 - comic strips
 - celebrity photographs
 - consumer product packaging
 - everyday objects

Andy Warhol

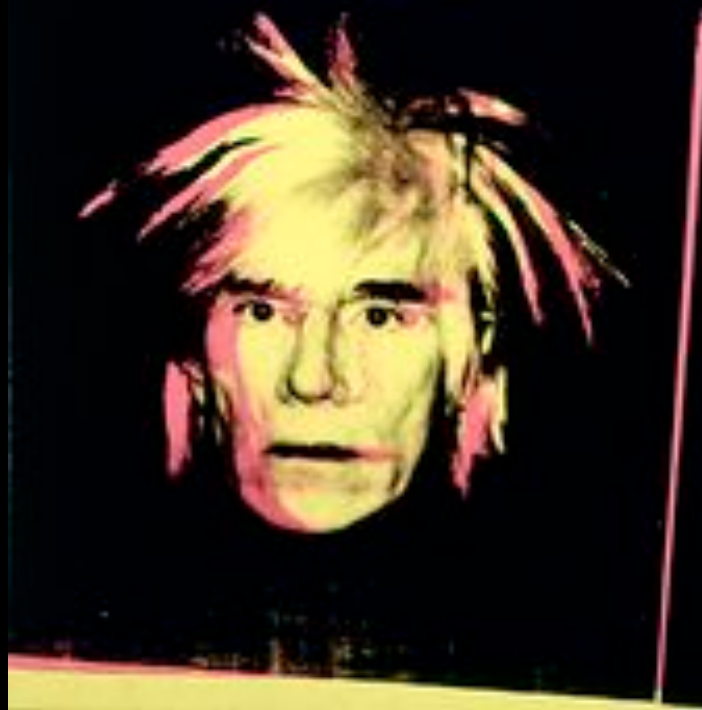

- Andy Warhol (1928-1987) was one of the most influential American artists of the 20th century.
- He drew on images such as comic books, soup cans, movie stars and the media to challenge the "highbrow" views of fine art.
- In addition to being an artist, Warhol was a filmmaker, painter, collector, music producer, commercial designer and illustrator, author, magazine publisher, and fashion model.
